-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

ART REJECTION:

Claim Rejections - 35 USC § 102

2. **Claims 1-30 are rejected under 35 U.S.C. 102(b) as being anticipated by Wilson et al(Wilson).**

-- **Claims 1-25** recite subject matter that is met for the reasons of record as discussed in the previous office action, as well as:

1) the generating and indicium indicative of normal operational status and sensing the presence of the indicium within a predetermined temporal window is met by the monitoring system of Wilson wherein as disclosed in figures 3J and 3K, a normal operational status of sensors is indicated to a user of the system, and in accordance with condition #1 as disclosed in Fig. 3K, the sensing of the presence of the indicium occurs within the temporal window between 8:00 AM and 5:00 PM M-F for a duration of 300 seconds.

-- **Claims 26-30** recite subject matter that was met as discussed in claims 1-25 in the previous office action, and as well above.

REMARKS:

Response to Arguments

3. Applicant's arguments filed 6/16/2005 have been fully considered but they are not persuasive.

Art Unit: 2632

Applicant is arguing that the system of Wilson et al(Wilson) does not read on the claimed subject matter because the claimed subject matter pertains to "a predetermined signal being provided at periodic intervals indicative of the proper operation of the system being monitored", whereas the system to Wilson merely describes "how a user can set time based conditional circumstances." The examiner contends that although this is a very important aspect of the system of Wilson, this aspect as well encompasses limitations as claimed in the claimed subject matter.

For example, even though the user does set conditions to be monitored in order to activate and alarm indication, a predetermined temporal window for monitoring and indicating of normal operational status of sensors is taught as discussed above(see: column 6, lines 25-43; column 16, lines 37 et seq) which reads on the claimed subject matter. In view of this, applicant's arguments are not deemed persuasive.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 2632

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
